

AX100 - Transfer car with roller turntable. Low built

AX100 - Stopp, mechanical lowered end stop for transfer car

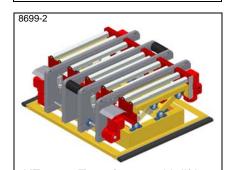

TH 260 mm

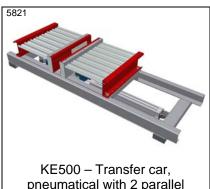

KE500 – Transfer car, undriven. With guide pins for positioning

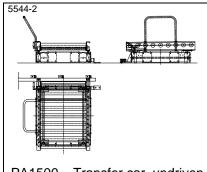

KE500 - Transfer car, driven, low built with roller conveyor. TH 270 mm

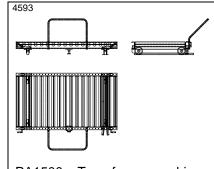

KE500 - Transfer car with lifting and lowering roller conv. With chain conv. through both sides

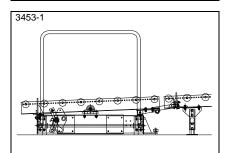

pneumatical with 2 parallel conveyors

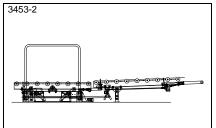

PA1500 - Transfer car, undriven with handle

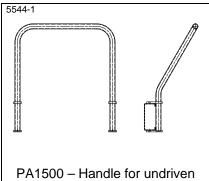

PA1500 - Transfer car, undriven with handle

PA1500 - Transfer car, undriven. Tilting of conveyor and stop in conveyor foot operated

PA1500 - Transfer car, undriven. Stop in adjacent roller conveyor foot operated

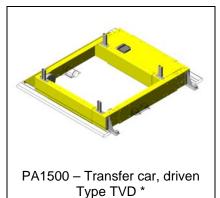

Transfer car

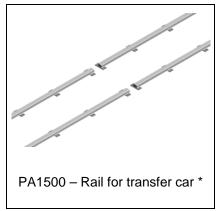

S-270 21 Glemmingebro

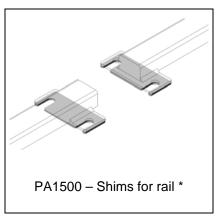

^{*} Datasheet available

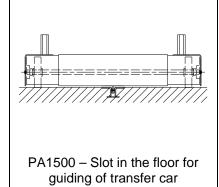

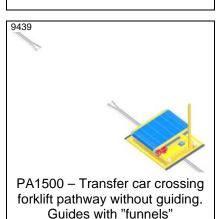

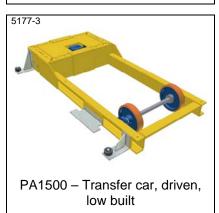

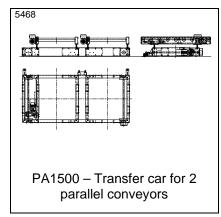

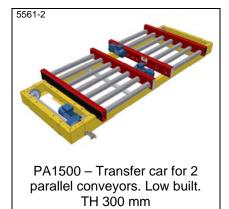

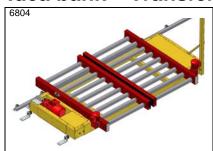

S-270 21 Glemmingebro

^{*} Datasheet available

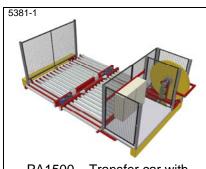

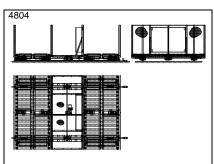

PA1500 – Transfer car for 2 parallel conveyors. Low built. TH 250 mm

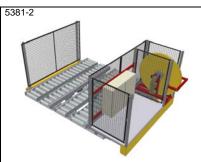

PA1500 – Transfer car for 2 conveyors. Divided to handle 1400 kg/conveyor

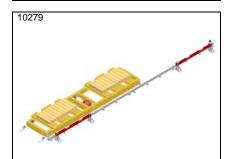

PA1500 – Transfer car with 2 conveyors and platform for operator

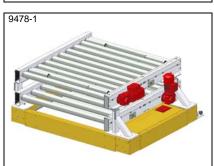

PA1500 – Transfer car with 4 conveyors and platform for operator

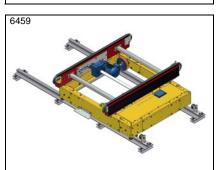

PA1500 – Transfer car with 4 conveyors and platform. 3 conveyors sideways moveable

PA1500 – Transfer car with two pallet positions for exchange of goods at pallet station

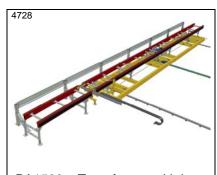

PA1500 – Transfer car with 2 levels of roller conveyors. The lower one for empty pallets

PA1500 – Transfer car with chain conveyor. Running on rails. With guide wheels

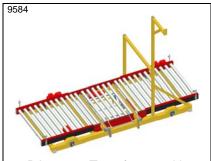

PA1500 – Transfer car, driven, low built, with chain conveyor. TH 270 mm

PA1500 – Transfer car with long chain conveyor

PA1500 – Transfer car with roller conv. with transveyor. Running on rails. With guide wheels

PA1500 – Transfer car with transveyor. Support chains lifted at the same time as the transveyor

S-270 21 Glemmingebro

^{*} Datasheet available

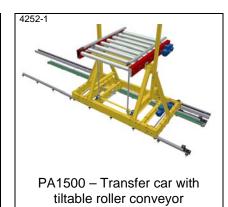

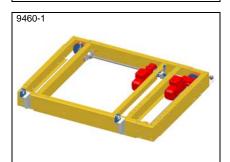

PA1500 - Transfer car with roller turntable

PA1500 - Transfer car on rail with roller turntable, low built. TH 430 mm

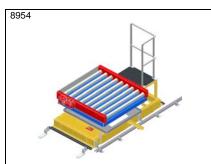

PA1500 - Transfer car with tilt function for roller convFor transport to gravity roller conv.

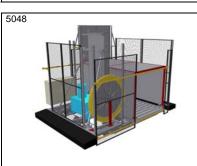

PA1500 - Transfer car with lift table and mechanical tiltable roller conveyor

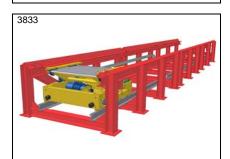

PA1500 - Transfer car with roller conveyor on lift table and platform for operator

PA1500 - Elevator, hydraulic, on transfer car

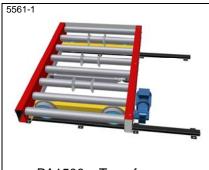

PA1500 - Transfer car with hydraulic lift unit and stand for buffering of goods

PA1500 - Transfer car, 4-wheel drive

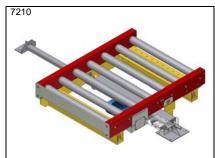

PA1500 - Transfer car, chain driven. With roller conveyor. TH 300 mm

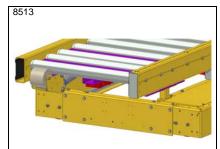

PA1500 - Transfer car, pneumatical. TH 300 mm

^{*} Datasheet available

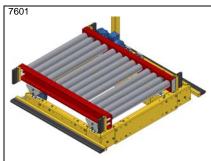

PA1500 - Transfer car, pneumatical. TH 300 mm

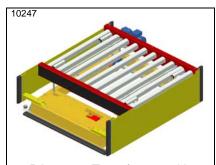

PA1500 - Electrical lifted roller for powering of the roller conv. at which the transfer car stops

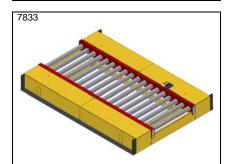

PA1500 - Transfer car with collision protection, safety contact rails

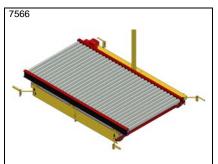

PA1500 - Transfer car with collision protection, safety contact rails

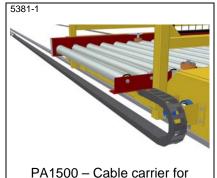

PA1500 - Transfer car with collision protection, safety contact rails

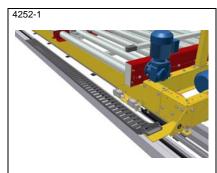

PA1500 - Transfer car with collision protection, bumpers

PA1500 - Transfer car with collision protection, 4 arms with photoelectric sensors.

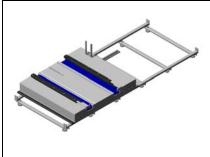

transfer car

PA1500 - Cable carrier for transfer car, with guide channel

PA1500 - Transfer car. Sturdy for heavy loads, up to 3600 kg. Equipped with bumpers

PA1500 Stainless - Transfer car with 2 stringed plastic belt conveyor

^{*} Datasheet available
