PA1500 - Roller conveyor, positive driven for turntable Type VR

Area of usage:
Roller conveyor for placing on turntable PA1500 type VM.

Technical data:
- Conveyor type: Positive driven roller conveyor.
- Frame: C-profile 18x70x170x70x18x4 mm.
- Roller length: 900 and 1100 mm.
- Roller pitch: 150 mm.
- Roller type: Ø80x2 mm.
- Diameter D: 1767 mm at roller length 900 mm. 1865 mm at roller length 1100 mm.
- Drive unit: Side mounted worm gear motor.
- Motor effect: 0.37 kW.
- Voltage: 230/400 V<sub>AC</sub>, 50 Hz.
- Sealing class: IP55.
- Transport speed: 6, 8, 10, 12, 14 and 16 m/min.
- Transport height: See data sheet for turntable PA1500 type VM.

Surface treatment:
RAL1006 (yellow).

Other:
A protection ring for turnable roller conveyors is recommended, if it is not protected by fence.
Zinc plated rollers on request.
PA1500 - Roller conveyor, positive driven for turntable Type VR
